what became of the indigestion and distress.

Millions of men and women today know that it is needless to have a bad stomach. A little Dispepsin occassionally keeps this delicate organ regulated and they eat their favorite foods without fear.

If your stomach doesn't take care of your liberal limit without rebellion; if your food is a damage instead of a help, remember the quickest, surest, most harmless relief is Pape's Diapepain which costs only fifty cents for a large case at drug stores. It's truly wonderful—it digests food and sets things straight, so gently and easily that it is really astonishing. Piease, for your sake, don't go on and on with a weak, disordered stomach, it's so unnecessary.

EPRESENTATIVE LONDON DEFENDS SOCIALISTS

Declares They Would Defand This Country If Attacked by Foreign Fee.

Washington, Jan. 18.—Every socialist in the United States would defend this country if attacked by a foreign foe, Representative London, the only socialist in congress, told the house today in an address against preparedness. Attracked by the comparative novelty of a socialist on the floor, the house shouted down attempts to limit London's time and apurred him on with questions. His declaration that the socialists would fight was greeted with thundorous applause. Representative O'Shaughnessy of Rhode Island demanded of London what would be the attitude of the socialists in case the American flag were attacked.

"I desire to say if the people of the United States were attacked every socialist would fight." London replied.

"What is the distinction between the flag and the people?" half a dozen representatives immediately asked in as many different ways, while London smiled and fenced the question.

"The people throb with life," he said, "while a flag is an emblem only. Any lunatic from an insane asylum can attack to be made on the people."

London then was asked if he supported a socialist pledce against ensistment. "As for me," he answered quickly, "if we were attacked, nothing would prevent me from sacrificing my life."

"Are the socialists in foreign counties."

The state body finds that since the embargo was placed there has been no improvement, but that the average time now taken to release cars is eight days, as compared to less than three in normal times. Prompt unloading is urged. The local chamber has announced that it will be glad to hear from its members or other Putnam men if there is any way in which the organization can serve them in this matter.
